

Sweeten your life with CANDY5!

# CANDY 5 HD II

## “Handheld HD video magnifier”

The CANDY handheld magnifiers are designed to provide a crystal clear HD image and an intuitive user interface

5" LCD Close-up and Near-distance Video Magnifier with Three-position Handle, Self View Image

**HIMS**  
www.himsintl.com

CANDY 5 HD II produces a vibrant natural color image for viewing. Maps, graphs, pie charts, gift catalogs, photographs and other color-sensitive materials. Additionally, customizable text / background color settings can make reading books, magazines and other text-based materials easier and more comfortable on your eyes.

## Features

More innovative and user-friendly features than any other 5" handheld video magnifier

### Crystal Clear HD image

CANDY's HD camera and high resolution LCD provide a crystal clear image quality without distortion as you move around a document.

### Reading Stand

The reading stand provides hands free comfort and convenience for reading longer documents.

### Auto Focus and Continuous Zoom magnification

CANDY is always in focus at any magnification level.

### Built-in Clock

Low vision users can easily check the time with this large, highly visible clock.

### Customized Color mode and Brightness Control Supports

Easily set and customize color modes and brightness to suit your visual condition and the material you are reading.

### Unique & Ergonomic Handle design

CANDY 5 HD II's exclusive 3-position ergonomic handle accommodates both left and right-handed users. All buttons are within easy reach while holding the handle. CANDY 5 HD II is the only handheld video magnifier that has a convenient image capture button right on the handle. Fold the handle under to use directly on your reading material, or place the unit onto its reading stand to sort mail, read a card, letter from a doctor, newspaper or magazine and more.

### Semi Distance View

See and capture a street map or shop sign, evaluate your surroundings on the spot.
