

While there are many technologies for the blind that enrich their lives, none can match the variety and scope of the applications the U2 offers for all aspects of life, including access to several mainstream compatible applications for services like Dropbox, Twitter and YouTube. With three models, the user may choose the U2 that best fits his or her lifestyle

Developed 3 type product divided by each preference

Braille Sense U2

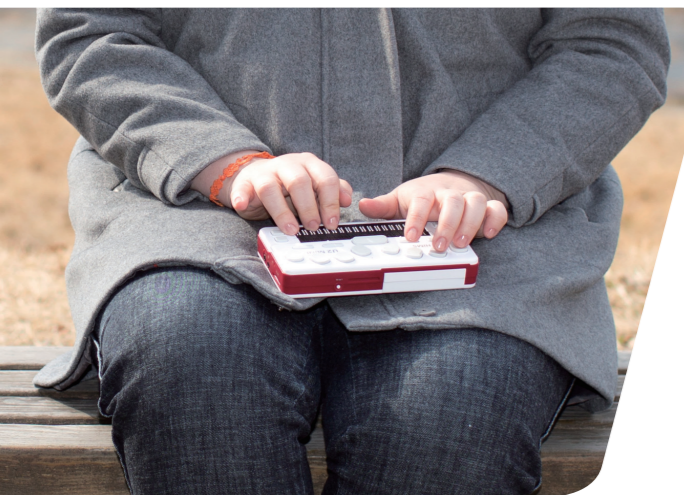

Choose the Braille sense U2 or U2 QWERTY for a powerful productivity solution with a 32-cell Braille display. The Braille Sense U2 features a 9 key Perkins-style Braille keyboard, while the U2 QWERTY sports a comfortable standard computer keyboard

Braille Sense U2 QWERTY

Braille Sense U2 MINI

The Braille Sense U2 MINI features a Perkins-style keyboard and 18-cell Braille display, and is ideal for a blind person's mobile life as it weighs just under 1 lb (452g) and is small enough to fit in a purse or jacket pocket
