

# GoVision Move

See More. Do More. Live Better.

GoVision Move is a portable video magnifier designed to support independent reading, writing, and distance viewing for those with low vision. With a Full HD display, advanced camera technology, long-lasting battery, and unique pen tracking function for precise and efficient reading and writing, GoVision Move delivers clarity and confidence for your on-the-go lifestyle.

## Key Benefits

### Powerful Magnification

Optical magnification up to 18× and digital magnification up to 72× guarantee clear visualization of fine details and distant objects.

### Full HD Display

A 15.6-inch Full HD screen (1920 × 1080) with anti-glaring screen ensures sharp, comfortable viewing for extended use.

### Advanced 3-in-1 Camera

Switch easily between Reading, Distance, and Self-View modes. Smooth 60 fps visuals, auto-focus, and a rotatable camera provide maximum flexibility.

### Innovative Pen Tracking

GoVision Move uses a unique sticker system to intelligently track pen and finger movement, resulting in a more natural and precise reading and writing experience.

## Key Benefits

### Smart Connectivity

Use HDMI input to magnify the screen of a PC, phone or tablet, while HDMI output offers connection to external monitors for an even larger display of your magnified camera view.

### Designed for Mobility

A foldable and portable briefcase design makes GoVision Move ideal for transporting between home, school, work, and travel.

### Long-Lasting Battery

GoVision move provides up to 6.5 hours of continuous use with fast recharging for everyday convenience.

## Specifications
